# ZA Digital Solutions

## Legal Notice

*Last Updated: 2026-03-19*

### 1. Identity of ZA Digital Solutions

---

ZA Digital Solutions is an independent digital business and digital brand operated by an individual and presented to the public through that operating structure.

Unless a later official notice expressly states otherwise, ZA Digital Solutions should not be understood as a separately registered legal entity or as having a legal status separate from its individual operator.

**Important:** ZA Digital Solutions is an independent digital business and operating brand run by an individual, and should not be understood as a separately registered legal entity unless an official notice expressly states otherwise.

References to ZA Digital Solutions in its materials, pages, communications, invoices, or transaction records identify the business and operating identity under which the relevant offering or transaction is made available, unless expressly stated otherwise in a specific context.

### 2. General Nature of ZA Digital Solutions

---

ZA Digital Solutions may offer or provide:

- digital products;
- text-based digital services;
- templates, documents, and packs;
- technical resources, guides, and downloadable materials;
- custom work on request.

The scope, nature, format, timing, and availability of an offering may vary by product, service, page, listing, communication, invoice, checkout context, delivery context, or other transaction-specific terms or circumstances relevant to how the offering is presented or made available.

### 3. Public Contact Channels

---

Public contact and communication channels for ZA Digital Solutions may include one or more of the following:

- Contact Email: [zadigitalsolutions.office@gmail.com](mailto:zadigitalsolutions.office@gmail.com)
- GitHub: <https://github.com/ZADigitalSolutions>
- X: <https://x.com/ZADigitalSol>
- Reddit: <https://www.reddit.com/user/ZADigitalSolutions/>
- LinkedIn: <https://www.linkedin.com/in/ziyad-a-76b24419b/>

Not every public channel serves the same purpose or is suitable for every type of request, inquiry, communication, or follow-up.

Unless expressly stated otherwise, email is the primary channel for formal written communication relating to legal, policy, privacy-related, refund-related, or operational matters.

ZA Digital Solutions may add, replace, remove, reorganize, or reprioritize public channels, contact methods, or communication routes at any time according to operational, administrative, or practical needs.

### 4. Payment Identity Notice

---

Payments may be processed or received through payment routes, accounts, or providers used by the operator of ZA Digital Solutions. Depending on the payment method, provider, transaction setup, or checkout flow used, the payment path for a particular transaction may vary.

Accordingly, the payment recipient name shown in a transaction record, provider statement, invoice trail, checkout interface, or payment interface may differ from the ZA Digital Solutions name. This may occur for operational, administrative, technical, or payment-processing reasons related to how the transaction is handled, recorded, routed, or displayed.

This does not, by itself, mean that a payment is unrelated to ZA Digital Solutions.

The contrary may be shown by the underlying transaction, communication, listing, invoice, order record, delivery context, or other reasonably connected transaction materials.

## 5. Global Scope

---

ZA Digital Solutions operates on a globally oriented basis and is not limited to any one country, language, or audience solely because it may be administered, hosted, registered, operated, or technically routed from a particular jurisdiction or through infrastructure connected to one.

ZA Digital Solutions does not undertake to offer every product, service, page, resource, language, format, or delivery model in every location, market, jurisdiction, or circumstance.

## 6. General Operating Position

---

ZA Digital Solutions seeks to describe its offerings, limits, operating structure, and contact routes clearly.

ZA Digital Solutions does not represent itself as providing unlimited continuity, universal availability, unlimited follow-up, unrestricted service scope, or indefinite operational support.

Availability, responsiveness, language coverage, communication continuity, and offering scope may vary depending on the relevant context and operating circumstances.

## 7. Communication and Administrative Follow-Up

---

ZA Digital Solutions may provide communication and administrative follow-up after contact, purchase, request, delivery, or access activation.

Even so:

- communication channels may not be monitored continuously;
- response times are not guaranteed;
- replies may be delayed, limited, or unavailable in some circumstances;
- some channels may be more suitable than others for certain requests;
- administrative follow-up is not promised indefinitely.

Customer-side delay may delay review, handling, delivery, follow-up, or completion. Any reduction or end of administrative follow-up does not, by itself, invalidate any sale, license, access right, refund position, or other core term already in effect, unless a specific rule expressly states otherwise.

## 8. Public-Facing Statements

---

ZA Digital Solutions seeks to present its offerings and related information accurately and in a manner reasonably suited to the relevant context.

Descriptions, references, examples, availability statements, and public-facing materials must be read together with the relevant terms, policies, limitations, and transaction context.

No statement should be interpreted in isolation from the surrounding document, applicable policy, transaction-specific terms, or specific offering context in which it appears.

## 9. Islamic Ethical Orientation

---

ZA Digital Solutions is founded upon and guided by Islamic values and teachings in the way it seeks to conduct its dealings, communications, rights-related positions, responsibilities, and general operations, and in the broader manner in which it seeks to approach conduct, accountability, and interaction throughout its business activities.

This means that ZA Digital Solutions seeks, in good faith, to act in a manner consistent with Islamic principles of honesty, fairness, responsibility, fulfillment of rights and obligations, respect for others, and the avoidance of wrongdoing and harm. This orientation reflects the ethical and operating framework by which ZA Digital Solutions seeks to carry on its business and interact with users, customers, and others.

This orientation is applied with due regard to applicable law, mandatory legal protections, regulatory requirements, and the lawful rights of users, customers, counterparties, and others in the relevant context.

This orientation may also be understood in light of the Qur'anic verse: "Indeed, Allah commands justice, good conduct, and giving to relatives, and forbids immorality, bad conduct, and oppression. He admonishes you that perhaps you will be reminded" (Qur'an, Surah An-Nahl 16:90).

It may likewise be understood in light of the saying of Prophet Muhammad: "There should be neither harm nor reciprocal harm" (reported from Abu Sa'id al-Khudri; Ibn Majah, al-Daraqutni, and others), which reflects the importance of avoiding wrongful harm and unjust conduct in dealings, relationships, and practical interactions.

## 10. Relationship to Other Documents

---

This Legal Notice forms part of the general ZA Digital Solutions legal framework and should be read together with the relevant related documents, including, where applicable:

- Terms and Conditions
- Privacy Policy
- Refund Policy
- License and Permitted Use
- Acceptable Use Policy
- Disclaimer
- Copyright and Brand Use

Unless more specific transaction-level terms apply, this Legal Notice helps explain the operating identity, public communication structure, payment identity context, and general business position of ZA Digital Solutions. It should be read as part of the broader ZA Digital Solutions legal and operating framework, not in isolation where another relevant document also applies.

Accordingly, this Legal Notice is intended to work alongside the related documents that govern particular aspects of use, access, transactions, licensing, privacy, refunds, disclaimers, or related matters.

It also helps provide general explanatory context for how ZA Digital Solutions presents its operating identity, communication channels, payment context, and public-facing legal position across its pages, materials, offerings, and related interactions.

Where relevant, this Legal Notice may assist in clarifying the general background against which more specific documents, transaction terms, or offering-specific terms are to be understood and applied.

Its role is primarily explanatory and contextual within the broader ZA Digital Solutions framework, while more specific documents may govern particular rights, obligations, restrictions, or processes in greater detail.

If a more specific document directly addresses a particular subject matter, that more specific document prevails over this Legal Notice to the extent of that subject matter and should be applied in that more specific context.

## 11. Applicable Law and Mandatory Rights

---

ZA Digital Solutions operates on a globally oriented basis and does not currently designate one named jurisdiction as the exclusive governing law for all Brand-level documents or general brand-level materials.

Any legal rights, consumer protections, mandatory rules, or non-excludable remedies that apply under applicable law remain unaffected.

Nothing in this Legal Notice excludes protections that cannot lawfully be excluded, limited, or waived under applicable law.

## 12. Language and Interpretation

---

The English version of this Legal Notice is the primary reference version.

Any translation provided now or later is for convenience, accessibility, or broader understanding only. If a material conflict, ambiguity, or inconsistency arises between a translation and the English version, the English version will prevail, unless applicable law requires otherwise.

ZA Digital Solutions does not undertake to provide every document, page, or offering in every language.

Where a current version of this Legal Notice is made available on an official ZA Digital Solutions website, page, or publication point, that published version should be treated as the latest reference version.
